

Will The Real Lee Harvey Oswald and The Real Kerry Thornley Please
stand UP? These two pages, 7899 and 7900, are from the withheld
transcript of the WC session with the shrinks. If you want to
keep, by all means do. But if you do, please return this note so
I'll know to copy and put those two pages in my Thornley file.
I find this an interesting suppression from the report, which
ought acceptance and credibility by deliberately mislabelling
LHO as a red. HW 2/10/73
